

## THE HEAVIER THE TRAFFIC, THE HEAVIER OUR CLEANING SCHEDULE.

Your arrivals and departures are on our radar screen. Why? Because they tell us when and where to clean your terminal. It's called Demand-Based Resource Deployment, and it allows us to adapt our cleaning schedule to fit passenger traffic patterns. This ensures a first-class environment for travelers and a cost-efficient solution for you. It's just one of the ways we've reinvented airport facilities services. To find out how our unique approach is working for today's airports, visit [www.unicco.com/mia](http://www.unicco.com/mia) or call us at **888-751-9100**.
